

iSolve acquisition accelerates business **growth!**

ITQ Business Solutions (PTY) Ltd has acquired a 60% stake of iSolve Business Solutions (Pty) Ltd and SQLDB Technology Solutions (Pty) Ltd.

ITQ Business Solutions services and supports its clients through the provision of bespoke software solutions, BI and outsourced / co-sourced development, predominately through the use of Oracle technology. ITQ was founded in 2000 and is today a member of the listed Morvest Business Group. ITQ has a complement of approximately 200 talented software development professionals and has established a solid reputation for delivering large and complex projects, all of which are reference sites.

iSolve Business Solutions (Pty) Ltd, a Microsoft Certified Partner with Gold competencies in Business Intelligence, Collaboration & Content, Data Platform and Learning Solutions, which was founded in 2002, is dedicated to delivering business solutions based on the latest Microsoft technologies. iSolve delivers holistic projects which include Bespoke Development, Technology Implementation, Consulting, Software Licensing, Hardware and Microsoft Training. iSolve has repeatedly been awarded Microsoft's partner of the year in a variety of categories – including Microsoft Worldwide Learning Solutions Partner in 2008. iSolve employs approximately 150 skilled and competent Microsoft consultants.

SQLDB provides resourcing and contracting to a variety of clients.

As subsidiaries of ITQ, iSolve and SQLDB will continue to operate as independent companies under their current leadership team of Peter Clark and Himel Ramjee. Peter and Himel were founders of the companies and will continue to run the companies on a day-to-day basis and retain a significant shareholding in both iSolve and SQLDB.

ITQ and iSolve have worked together on a number of successful projects over the years and have enjoyed a productive business relationship. The conclusion of this deal now cements our relationship to be a leading consulting house offering leading edge technology solutions to a tier one client base.

The joining of forces between ITQ and iSolve will broaden and deepen our combined solution offering. Our unified staff compliment of 350 IT professionals will enable us to offer our customers a far more comprehensive service across both the Microsoft and Oracle technology stacks which include a hardware offering. This partnership makes ITQ/iSolve the supplier of choice for end to end solutions.

More about iSolve Business Solutions (Pty) Ltd

iSolve Business Solutions (Pty) Ltd, a dedicated Microsoft Partner with Gold competencies in Business Intelligence, Collaboration and Content, Data Platform and Learning Solutions is dedicated to delivering solutions on the latest Microsoft technologies. The Company has been vetted and certified as a BEE owned company and meets the criteria of the ICT BEE Charter. iSolve has a majority shareholding by Previously Disadvantaged Individuals (PDI) stakeholders. It is also committed to reinvesting in the people of South Africa and has embarked on various projects to help uplift PDI's through education at the iSolve Learning Academy.

iSolve's people are the cornerstone of the business. Besides more than 120 skilled and competent Microsoft consultants, iSolve management stems from a technical background, giving a hands-on management approach. iSolve brings to any project a team of dedicated, experienced IT professionals who have been involved in projects both from a vendor as well as a customer perspective.

iSolve's vision of successful delivery is achieved through a fundamental understanding of business drivers, ensuring that business and IT needs are strategically aligned. This approach allows iSolve to deliver IT services to specification, on time and within budget.
